Third-party Quote Loader Extension, Moneydance 2020 to 2024 ONLY.

I am not support staff, just a user.

Quote Loader is a third-party extension that has been reviewed and signed by Infinite Kind (Moneydance).

For Moneydance 2022 to 2024 only, latest Quote Loader Version 2 build is 321008

****UPDATE****

- Improve the reliability of Yahoo/Yahoo HD when retrieving larger numbers of securities/exchange rates. When throttling is in effect, as indicated by on screen message, it will take longer to retrieve prices.

YAHOO HAS IMPOSED CALL RESTRICTIONS. See PDF for details.

- Update PDF's to reflect Quote loader changes.
Quote Loader V2 Extension Moneydance 2022 to 2024 V11.8
Quote Loader V2 Extension Moneydance 2022 to 2024 Handling Cryptocurrencies Market Indices and Futures V5.4
Create On Demand and Scheduled Auto Run at defined time on Windows V1.2
Create On Demand and Scheduled Auto Run at defined time on Linux V1.2.

As a signed extension Quote Loader can be found under EXTENSIONS – MANAGE EXTENSIONS.

Simply click EXTENSIONS – MANAGE EXTENSIONS – AVAILABLE tab, find Quote Loader and click install or update.

Once installed re-start Moneydance - installation complete.

Mike has created to version of Quote Loader that should work with MD 2020 and MD 2021. You will find it at <https://github.com/mrbray99/moneydanceproduction/tree/main/OldExten...>

BE AWARE this version has not been verified by TIK and you will receive a warning saying just that. You use at your own risk. TIK would prefer that you upgrade Moneydance to a newer version. Mike cannot guarantee that future changes to Quote Loader will be retrofitted to this build. Install by dragging and dropping into Moneydance Side Bar, list on left.

Reference <https://infinitekind.tenderapp.com/discussions/moneydance-development/8910-old-version-of-quote-loader>

Quote Loader was developed and is supported by Mike Bray.

PDF's and Videos by Derek Kent.

The system provides an end to end solution, obtaining quotes from a choice of sources and entering them into the relevant Currency/Security History window, all from a single window within Moneydance. The system can obtain Security Prices, Exchange Rates, Market Indices, Cryptocurrency Rates and prices for Cryptocurrency Investments. The system provides quotes from many stock exchanges, US, Canada, UK, Europe and Australia to name but a few. The process of obtaining quotes from the selected source is fast and error free.

Download the attached PDF, follow the instructions on how to use Quote Loader.

The PDF also contains links to Quick Start Guide Video, Short and Full Tutorial Videos.

There is also a link to a video relating to Yahoo failing to return supported securities due to restrictions.

All videos are on YouTube.

The second PDF covers the creation and importing of Cryptocurrencies, Market futures and Market Indices into Moneydance.

The third and fourth PDF's relate to Quote Loader Auto Run on Demand.

Please keep this thread to this subject on how to use Quote Loader version 2.

Please try this approach and if you find it useful please take the time to post comments and outline any problems you may find.
